Ankur Roy Chowdhury

Product Management | **AI & Data Products** | **MBA (ISB, 2027) and B.Tech (IT)**

+91 8420474705 | roy.chowdhury.ankur14@gmail.com | linkedin.com/in/ankur-roy-chowdhury-928256221 | ankurroychowdhury.vercel.app

Engineer turned MBA who builds AI products. Built Java apps and a GPT-4 assistant at Accenture, shipped 2 AI tools at Amgen that cut work from days to hours, and founded Curio, an AI learning app with 120 users.

EDUCATION

Indian School of Business (ISB) | **PGP YL (MBA), Class of 2027** — Jun 2025 - Present

- Emerging Leaders Merit Scholar: **100% tuition scholarship (₹18.65L)**; CAT 99.75 percentile (99.98 in Verbal)
- National Semi-Finalist: Launchpad (top 79 of 1,000+, JioAI rural market entry) and HUL FinAce (top 30 of 5,000+)

ESSEC Business School, France | **Student Exchange Programme** — Jan 2027 - Mar 2027

IIEST Shibpur | **B.Tech, Information Technology** | CGPA 8.62/10, rank 11 of 119 (top 10%) — Aug 2020 - May 2024

Adamas International School, Kolkata | ICSE 98.8% (State Rank 2, National Rank 4) | ISC 92.5% — May 2006 - May 2019

- Felicitated by the Chief Minister of West Bengal (1 of 5 among 1.73L+); Sachis Kiran Roy Memorial Scholar (1 of 200+)

EXPERIENCE

Amgen | **Product Strategy Intern, AI & Data Labs** — Hyderabad | Apr 2026 - May 2026

Fortune 500 biotech. Owned discovery to delivery for 3 AI and data products

- Cut clinical research review **from 7 days to 2 hours** by shipping SLRDx, an AI tool on an existing NLP/OCR extraction engine; tested accuracy before rollout and took it from concept to adoption in 6 weeks
- Secured sign-off from **15+ senior leaders on 3 AI product concepts** by running 20+ stakeholder interviews across 10+ teams, ranking 6 workflow bottlenecks by impact and presenting 20+ wireframes
- Reduced marketing plan drafting **from 3 days to under 1 day** by launching a Marketing Plan Generator with 7 regional teams; piloted with 50+ users, with a rollout to 14+ teams planned
- Wrote requirements for 2 decision-support dashboards, mapping 10+ data fields from 5+ sources

Accenture | **Advanced Application Engineering Analyst** — Kolkata | Sep 2024 - Apr 2025

Software engineering in Agile teams: Java apps, data pipelines and GenAI tools

- Built a GPT-4 and LangChain assistant that answers plain-English questions on SQL and CSV data
- Raised **CSAT by 35% for 5,000+ users** and protected ₹12L+ in retention value by delivering 3+ Java apps
- Won **Star of the Month** for making a data pipeline 85% faster in a critical migration, saving ₹10L+ in infra costs
- Lowered recurring product issues from 15 to 5 by running bug-fix sprints across 5+ Agile teams
- Shortened onboarding from 6 to 4 weeks for 50+ associates with guides and labs; taught 5+ Java and Python sessions

Accenture | **Advanced Application Engineering Analyst Intern** — Remote | Jun 2023 - Aug 2023

- Halved compliance look-up time, saving ₹2L+ a year, by building a database of 200+ regulations from 30+ jurisdictions
- Selected as 1 of 30 interns from 600+ applicants; **earned a pre-placement offer as 1 of 5 interns**

PurpleSynapz | **Cybersecurity Research Intern** — Remote | Mar 2022 - Jul 2022

- Saved 15 analyst hours a week by automating 70% of manual security checks with Python
- Increased tool adoption by 20% (5,000+ to 6,000+ users) by designing a simpler interface for non-technical users

PROJECTS

Curio | **Founder** | Swipeable, fact-checked AI learning app — curio-three-iota.vercel.app

- Designed a two-model RAG pipeline on GPT and Claude where one writes each card and the other fact-checks it
- Reached **120 users with 79% activation** (median 19 seconds to first card) and a 1.9:1 like-to-pass ratio
- Grew weekly card saves **by 262%** (8 to 29) by shipping a Recall Quiz after launch, with 43% sign-in conversion

ISB Product Projects

- MediusEarth (climate tech): bundled 100+ product features across 14 areas after benchmarking 10+ competitors
- BTribe: built a website roadmap, prioritizing 10+ features and mapping user journeys for 5,000+ potential users
- Apollo: modeled a skincare kiosk business case with 6 KPIs, projecting ₹14,820 monthly margin uplift per store

SKILLS

- **Product:** user research, discovery, prioritization, roadmaps, wireframes, requirements, KPIs, go-to-market
- **Technical:** Python, SQL, Java, GitHub, Tableau, product analytics, LLM apps (GPT-4, Claude, LangChain, RAG)
- **Ways of working:** Agile (Scrum), cross-functional teams, stakeholder management, technical presentations

LEADERSHIP AND ACTIVITIES

- **Secretary General, REBECA 2024:** elected head of IIEST's alumni and cultural fest from 1,000+ students; raised ₹56L+ in 21 days and led 150+ members across 15+ societies to run 30+ events for 10,000+ attendees
- **MarComm Lead, ISB Sports Club:** selected from 130 students; raised cohort sports participation by 30% (50 to 65)
- **Football captain:** led IIEST to titles at IIT-ISM Dhanbad (48 teams) and IIT Kharagpur (32 teams); IIEST Best Player
- **Mentor and writer:** taught 30+ underprivileged students (100% pass rate); wrote 20+ GameRant articles (50,000+ views)
